Introduction

Install anywhere with long battery life.

Tapo Wire-Free Security Camera System is designed to be used outdoors. Its rechargeable and removable battery with a low-power protocol extends your usage. No wires means you can place the camera wherever you like.

- **1080p Full HD Live View** – Check 24hrs clear live view through the Tapo app.
- **180 Day Long Battery Life*** – The rechargeable and removable battery with a low-power protocol extends your usage.
*180-day battery life is based on TP-Link's laboratory testing with 10-20 triggered events per day. Actual battery life may vary based on device settings, use, and environmental factors.
- **Wire-Free Placement** – No wires means you can place the cameras almost anywhere inside or outside - whatever works for you.
- **Smart AI Detection** – Detect multiple event types with smart AI algorithms. Adjust the sensitivity according to your needs.
- **Sound Alarm** – Trigger sound as an alarm when motion is detected.
- **Motion Detection** – Get instant notifications when your camera detects motion.
- **Weatherproof** – Helps Tapo cameras perform well even in harsh environments with rain and dust.
- **Two-Way Audio** – Communicate with others with the built-in microphone and speaker.
- **Activity Zone** – Notify you when activity is detected in your specific zone.
- **Flexible Storage Choices** – Save recorded videos on the hub-installed microSD* card (up to 256 GB) or by using Tapo Care** cloud storage services.

*microSD card needs to be purchased separately.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

- Do not use the device where wireless devices are not allowed.
- Adapter shall be easily accessible.
- Do not disassemble, repair or modify the product.

- Use only power supplies which are provided by manufacturer and in the original packing of this product. If you have any questions, please don't hesitate to contact us.
- This product can be powered only by power supplies that comply with Power Source Class 2 (PS2) or Limited Power Source(LPS) of IEC 62368-1.
- This product uses radios and other components that emit electromagnetic fields. Electromagnetic fields and magnets may interfere with pacemakers and other implanted medical devices. Always keep the product and its power adapter more than 15 cm (6 inches) away from any pacemakers or other implanted medical devices. If you suspect your product is interfering with your pacemaker or any other implanted medical device, turn off your product and consult your physician for information specific to your medical device.

CAUTION!

Risk of fire or explosion
if the battery is replaced by an incorrect type

CAUTION!

Avoid replacement of a battery with an incorrect type that can defeat a safeguard.
Avoid disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
Do not leave a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas; Do not leave a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

For Camera:

- Adapter should be used indoors where the ambient temperature is lower than or equal to 40 °C.
- Keep the device away from fire or hot environments. DO NOT immerse in water or any other liquid.
- Camera Operating Temperature: -20 °C ~ 45°C (-4°F ~ 113°F)

For Hub:

- Keep the device away from water, fire, humidity or hot environments.
- Hub Operating Temperature: 0 °C ~ 40°C (32°F ~ 104°F)

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.
